Dear WND Reader,

What I am about to tell you is an objective fact.

Google not only censors WorldNetDaily (WND.com). It goes further to filter us out of their search results so no one can find us unless they specifically search using our name.

But don't take my word for it.

After you finish reading this quick message and perhaps [helping us with a contribution today](#) so WND can continue publishing news and commentary for our many conservative readers free of charge, go to Google and search some of these topics:

- **"Christian news media"** – even though WND is the oldest online journalism organization in America and still one of the most popular, and at the same time is the largest Christian website on the internet, WND isn't mentioned once in the top 100 results.
- **"Conservative news media"** – no results of WND, but plenty for liberal news sites like Politico. . . The Washington Post. . . The Huffington Post. . . and the ultra-radical left Daily Kos.
- **"Idiot"** – President Donald Trump appears as the third result in the search and appears dozens of times in page after page of search results.
- **"Racist"** – All Trump All Day Every Day!

And if you specifically search for "WND" or WorldNetDaily, the results return not only links to our website, Twitter feed, Facebook page, etc., but they also include lots of links from WND-hating anti-Christian publications like the Washington Post, Media Matters for America, Salon, and The

Huffington Post...

...Organizations that smear WND in their stories and take pleasure in knowing that we are struggling to stay alive financially now that Google and Facebook have dried up virtually all of our advertising revenue.

I've known this for a long time, but something happened recently that really brought it home for me in a dramatic and sort of shocking way. I needed to pull up a story I had written several years ago and did a Google search for it. I typed in the exact headline, word for word, and then pressed enter. I got back a total of eight pages of search results, but **my story was not anywhere** on the first page. Nor was it on the second, or the third, fourth, fifth, or ANY of the eight pages of Google search results!

Incredible, I thought. Then I copied and pasted the exact same headline into the Yahoo search engine, hit enter, and bingo — my WND article was the VERY FIRST search result returned. Of course it was; it was the most perfect match for my search terms, right?

That experience showed me in a chilling and undeniable way that **Google really has rigged its search algorithms** to exclude the pioneering news organization I've worked at and helped lead for the past 20 years.

To shut our enemies up and spoil their celebration over the financial difficulties we are facing — financial difficulties that could indeed shut us down — **I hope you will help WND with a gift of \$25, \$50, \$100 or more today.**

Your gift will allow WND to deliver the news to our readers across the country free of charge, and also maintain our status as our nation's original pioneering online news source for fair, accurate, courageous and insightful "real news" reporting, delivered to millions of pro-Constitution, pro-American, pro-Christian readers like you every day.

[PLEASE DONATE]

Your donation will allow us to continue the vital task of shining a bright and honest light on today's world, including the lawless political and cultural forces that threaten Americans' happiness, well-being, security — and sanity!

In an age when journalistic truth is increasingly rare, WND is dedicated to making sense out of the chaotic and dangerous era we are living through. Many important stories never see the light of day — until WND breaks the story.

So if you value WND, please know that your decision to **help with a contribution in any amount today** is essential to our survival and success.

So will you help WND with a gift of \$25 or more today?

I'm counting on your support because if we have any chance of surviving the attacks launched on

WND by left-wing internet giants like Google — filthy-rich behemoths that seriously want to put us out of business – [we cannot survive without your help](#).

Thank you in advance for your best gift, and may God bless you.
