Here's how to get FREE, state-of-the-art cybercurrency while supporting independent media

Farah: All I ask is for you to donate to WND, and we'll send you a GIFT of red-hot AML Bitcoin tokens

Are you looking a gift horse in the mouth?

When I tell you that I want to GIVE you 10 AML Bitcoin tokens, or 25, or 50, or 100 or more AML Bitcoin tokens, maybe you're thinking, "Joseph Farah must have gone mad. The pressure those fiends at Google, Facebook and YouTube have been applying on the independent media must have pushed him past the breaking point.

How can he possibly be giving away the hottest new cybercurrency in a marketplace where cybercurrency rocks??"

Is that what you're thinking – that my offer is just too good to be true?

It almost is too good to be true. When I thought of this idea, it occurred to me that people might not believe it. After all, who in their right mind is giving away cybercurrency these days?

But trust me, it makes sense.

Here's the way it works. I've invested in cybercurrency at an opening price – let's just say \$1. I could hold on to that stash and watch the money accumulate over time. But I don't have time. I need to invest in WND and in saving the independent media in 2018, to enable us to do everything possible to fight the Deep State and save the country from making a grave political mistake it will regret. I need financial resources now – or there is no tomorrow.

So, I'm hoping we can both win: You send me \$100 today and I'll send you 10 AML Bitcoin tokens. I get the money I need today, and, if I'm right, you'll do very well holding on to that cybercurrency, based on past experience.

That's why I am excited about [our current effort to raise money around a giveaway of AML Bitcoin](#). Ever since I first heard about this company, I was sure it would become one of the leaders in cryptocurrencies because of two things – (1) the safety and security it offers because of its unique, patented anti-hacking technology; and (2) AML Bitcoin's swaggering attitude that got the company's big commercial debut on the Super Bowl banned by politically correct NBC and the NFL.

[I really hope you will check out that banned commercial. That's the kind of TV ad I don't mind watching more than once. Why is it that all the good ads get banned?](#)

What I love about this plan is that it provides a way in which you can support the future of independent media while getting back something that might be better for you than a tax deduction – in fact, quite a bit better.

Those who contribute \$100 or more to WND will receive – as a gift, a payback, a tangible thank-you – some of the latest cyberrcurrency about to explode upon the financial scene from AML Bitcoin, with patented anti-theft technology that could revolutionize this medium of exchange.

While purchase of cyberrcurrency has been red hot for several years, sophisticated hackers – including professional money-launderers, rogue governments like North Korea and even international terrorists – have played havoc with the bitcoin business, prompting government regulations for safeguards. The first company to emerge with the technology and security measures built into its cyberrcurrency to address this problem can be expected to emerge as the leading provider – not just to individuals like you and me, but for major corporations and even governments.

AML Bitcoin may be best positioned to do just that – benefiting you and me with cyberrcurrency that has demonstrated its ability to grow in value in the future.

Would you like to get in on the ground floor of this opportunity – or at least get your feet wet in this promising new digital currency arena?

Not only do I believe you will be happy you did, but it could provide WND with a sustainable future of growth and independence, so we can remain steadfast and committed guardians of the truth without fear or favor.

What am I asking?

I'm asking you to make the largest donation you can to WND – at least \$100 or more – and receive a gift back of AML Bitcoin proportional to your donation. It's that simple. I believe what you receive could – no guaranties of course – become more valuable than your contribution to America's guerrilla freedom fighters inside the media.

Donate \$100 and get 10 AML Bitcoin tokens.

Donate \$500 and get 50 AML Bitcoins.

Donate \$1,000 and get 100 AML Bitcoins.

Donate \$5,000 and get 500 AML Bitcoins.

[Check out the offer now](#). Pray about it. See how God leads. Also, ask yourself if this offer is more valuable to you than a tax deduction.

Blessings,

Joseph Farah
